ABOUT US

“WE ARE A COMPANY LINED UP AND COMMITTED TO THE SUSTAINABLE, ECOLOGICAL CLEANING DEVELOPMENT WHICH IS A QUALITY AND INNOVATIVE SERVICE AT THE SAME TIME”

OUR MISSION

We are a company aligned and committed to the sustainable development of high-quality and innovative eco-friendly cleaning services, making a real contribution to a new model of active, environmentally conscious, and socially responsible services.

OUR VISION

To become a leading company in providing ecological cleaning services, satisfying the needs and exceeding the expectations of quality safety, and services for our clients on an international level.

RESPECT

We promote respect for nature because it's our home and we must honor it, as our lives wouldn't be possible without its resources and their good condition.

AUSTERITY

We are a company aware of what we consume and our actual needs. This value is implemented through reduction and reuse.

OUR VALUES

SOLIDARITY

We aim to protect natural resources regardless of the hemisphere we're in.

EMPATHY

We identify with nature and understand that what affects it also affects us. Our motto is "Save the planet," as it's about saving ourselves and future generations.

COHERENCE

We act consistently with our ideas and expressions. We preserve nature and take actions that align with that principle.

CLEANING SERVICES

RESIDENTIAL CLEANING SERVICE (GENERAL AND DEEP DOMESTIC CLEANING)

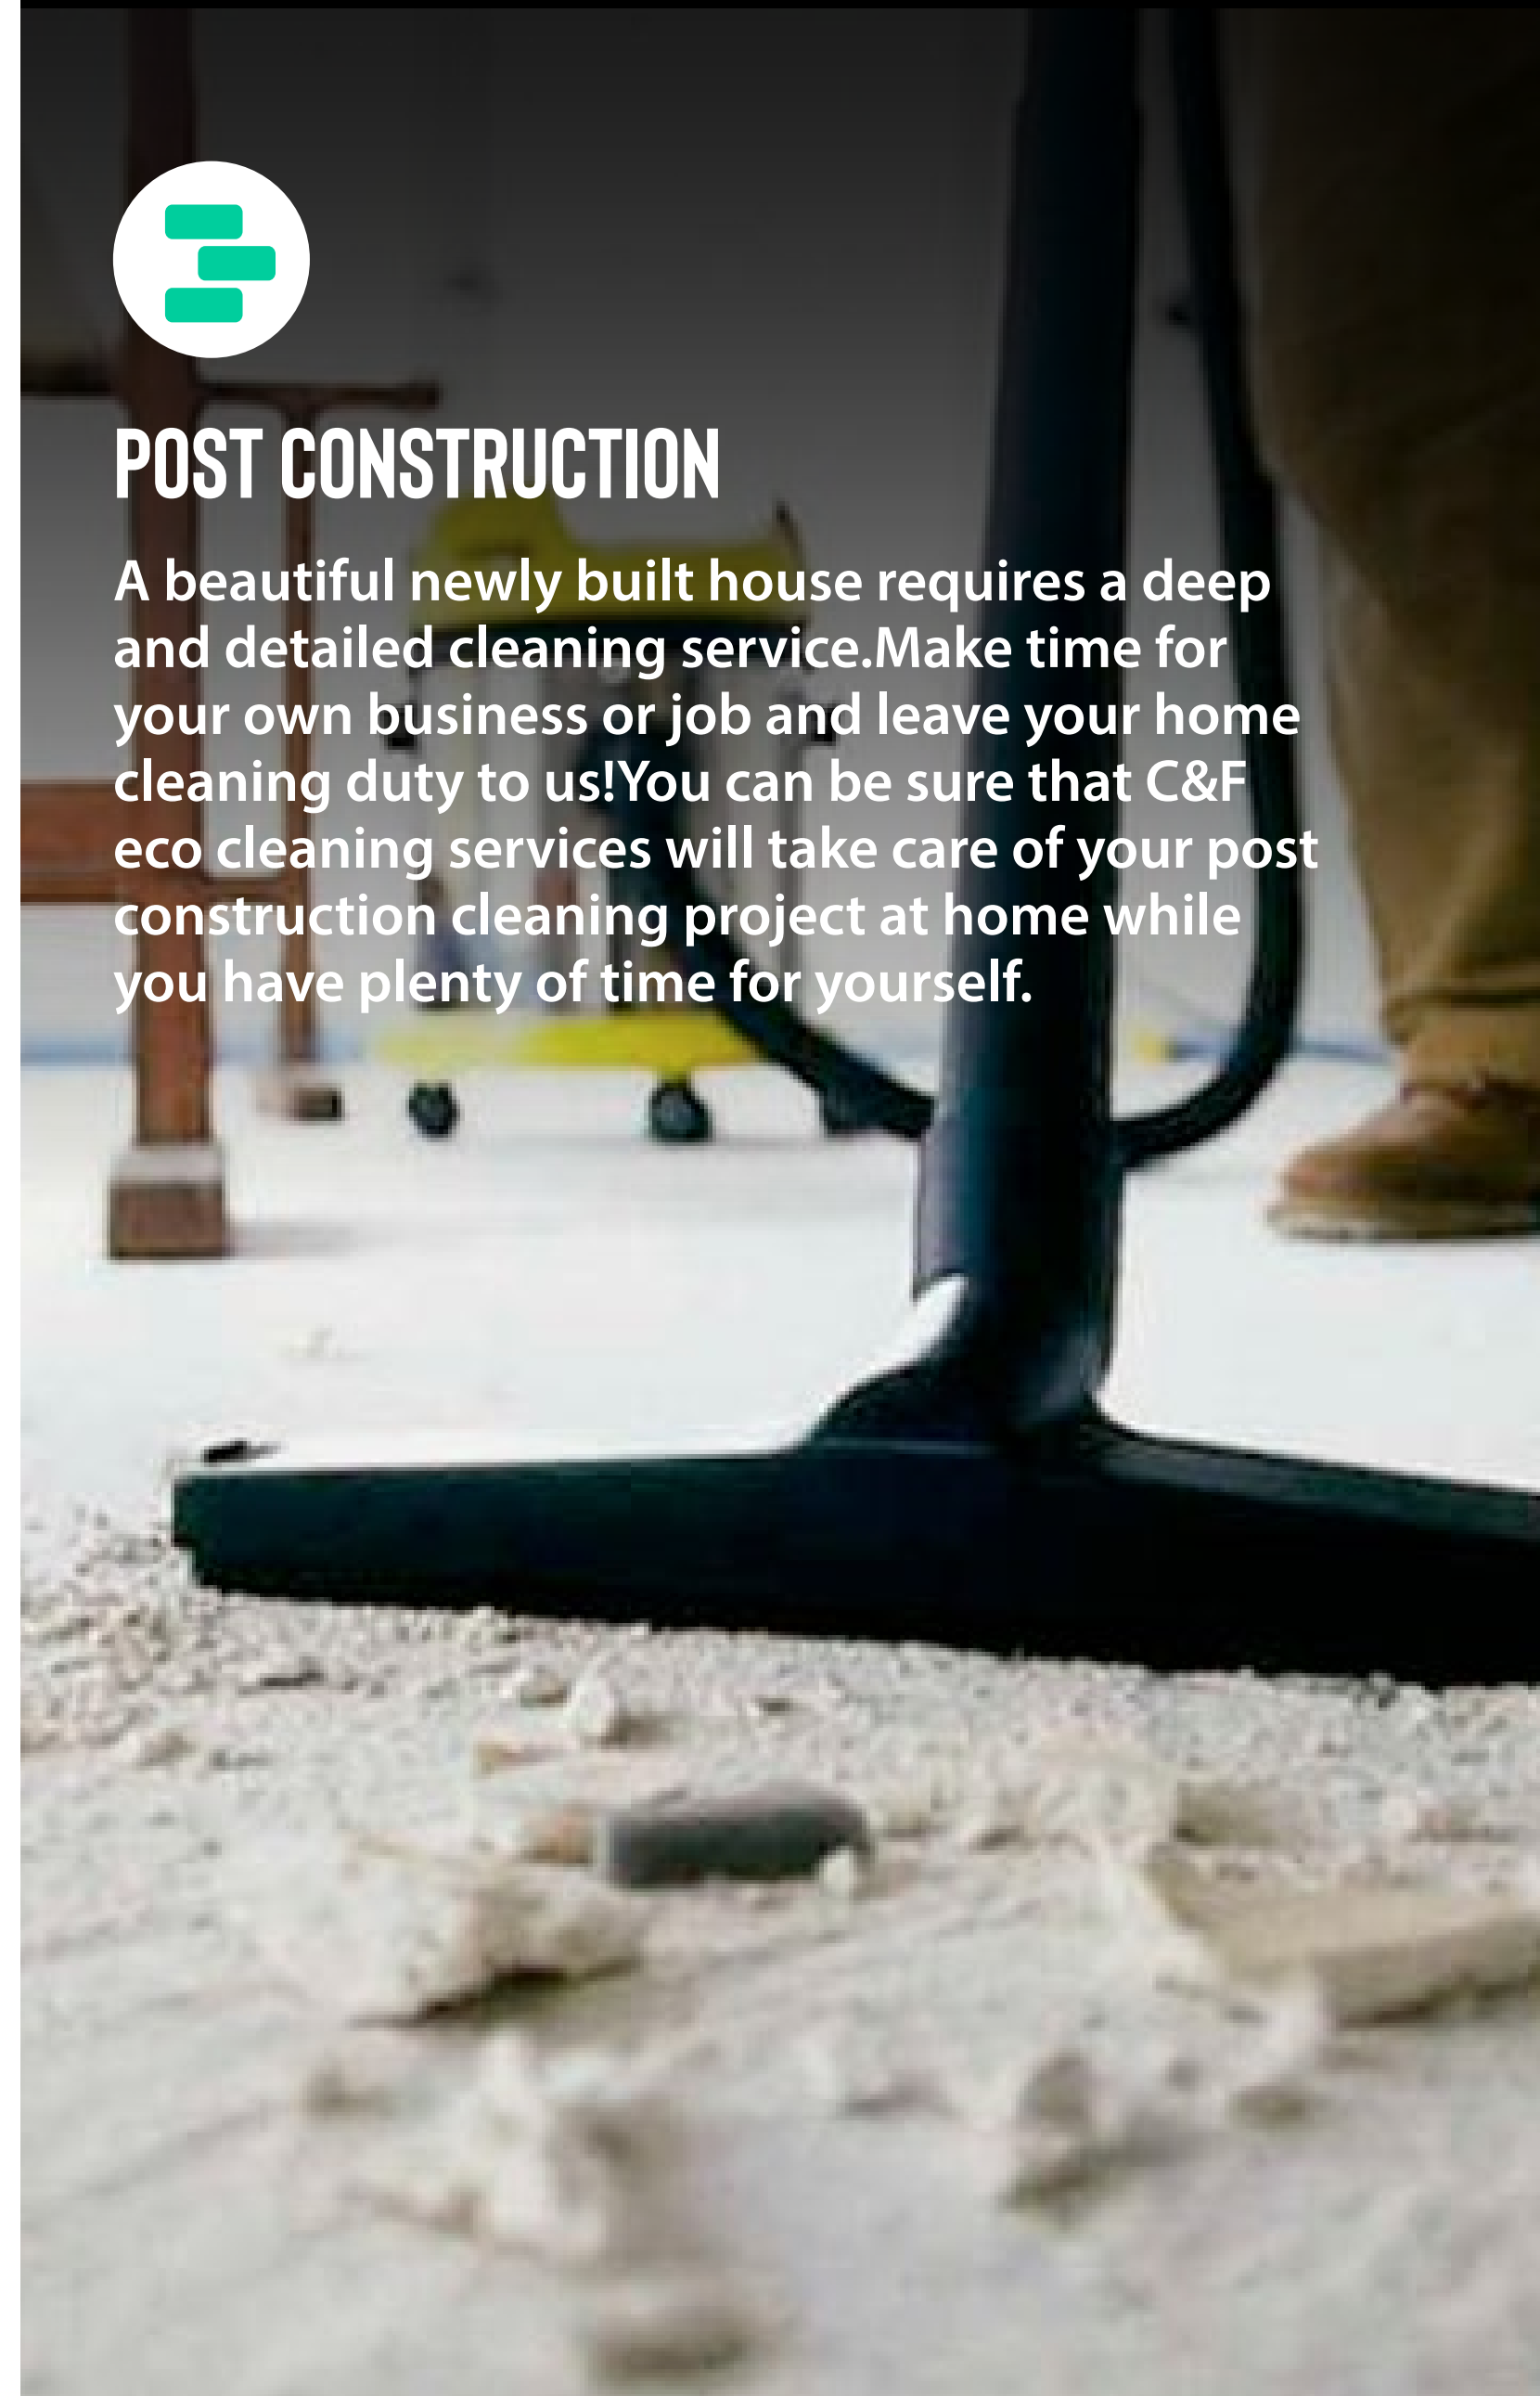

We understand the difference between cleaning, sanitizing and disinfecting, that is why our service is fundamental to keep a clean and healthy environment at home.

These three cleanliness levels have different purposes, in terms of getting ride of the dirt, reducing germs and preventing the spread of diseases. Therefore, we use steam engines for all of our services like floors, bathrooms and kitchens without the need of chemic products that can harm the health of your family.

POST CONSTRUCTION

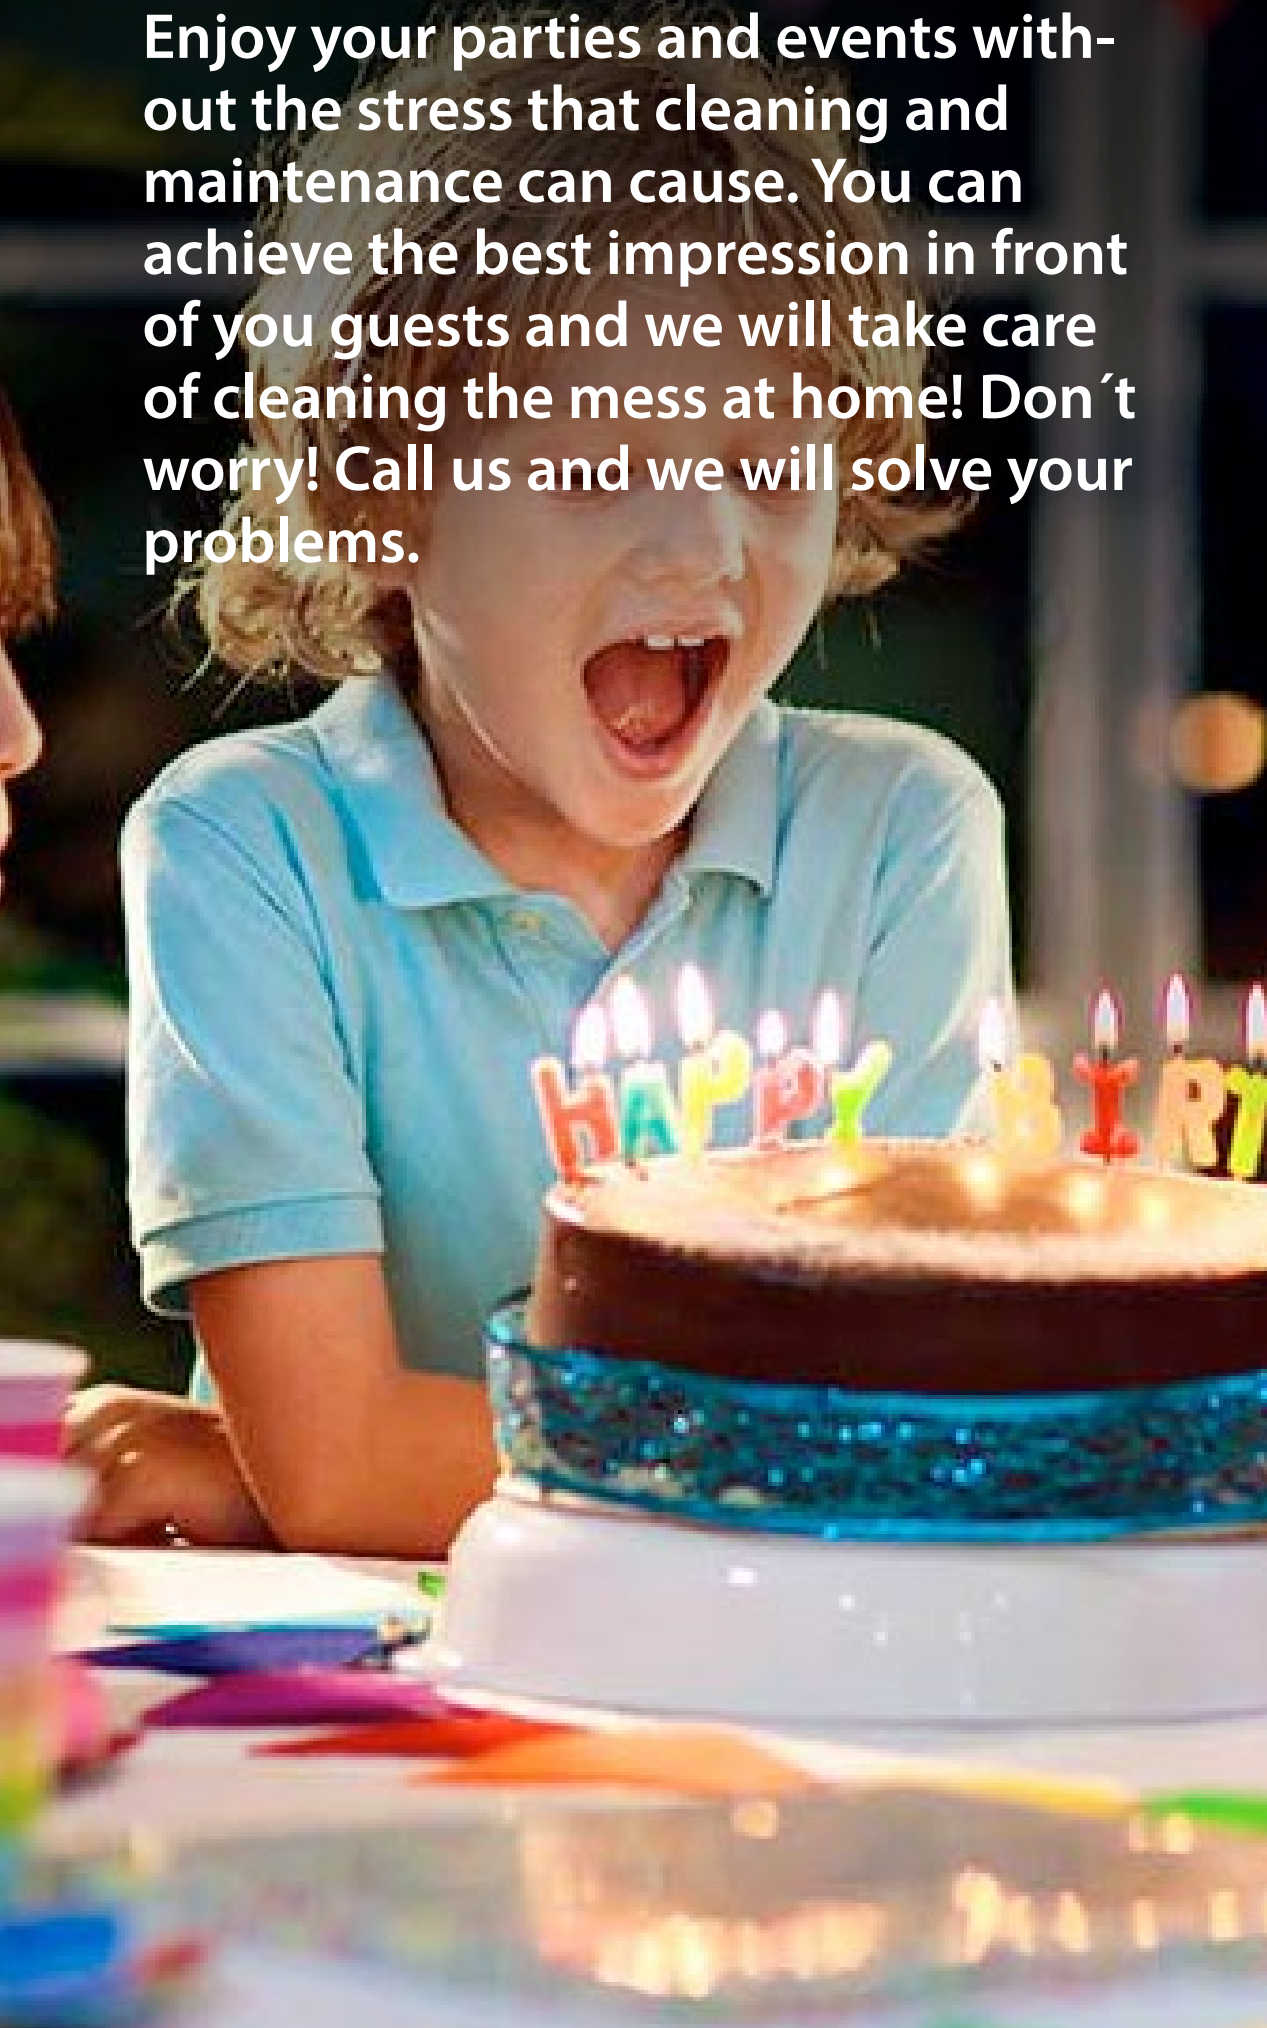

A beautiful newly built house requires a deep and detailed cleaning service. Make time for your own business or job and leave your home cleaning duty to us! You can be sure that C&F eco cleaning services will take care of your post construction cleaning project at home while you have plenty of time for yourself.

BEFORE AND AFTER PARTIES!

Enjoy your parties and events without the stress that cleaning and maintenance can cause. You can achieve the best impression in front of your guests and we will take care of cleaning the mess at home! Don't worry! Call us and we will solve your problems.

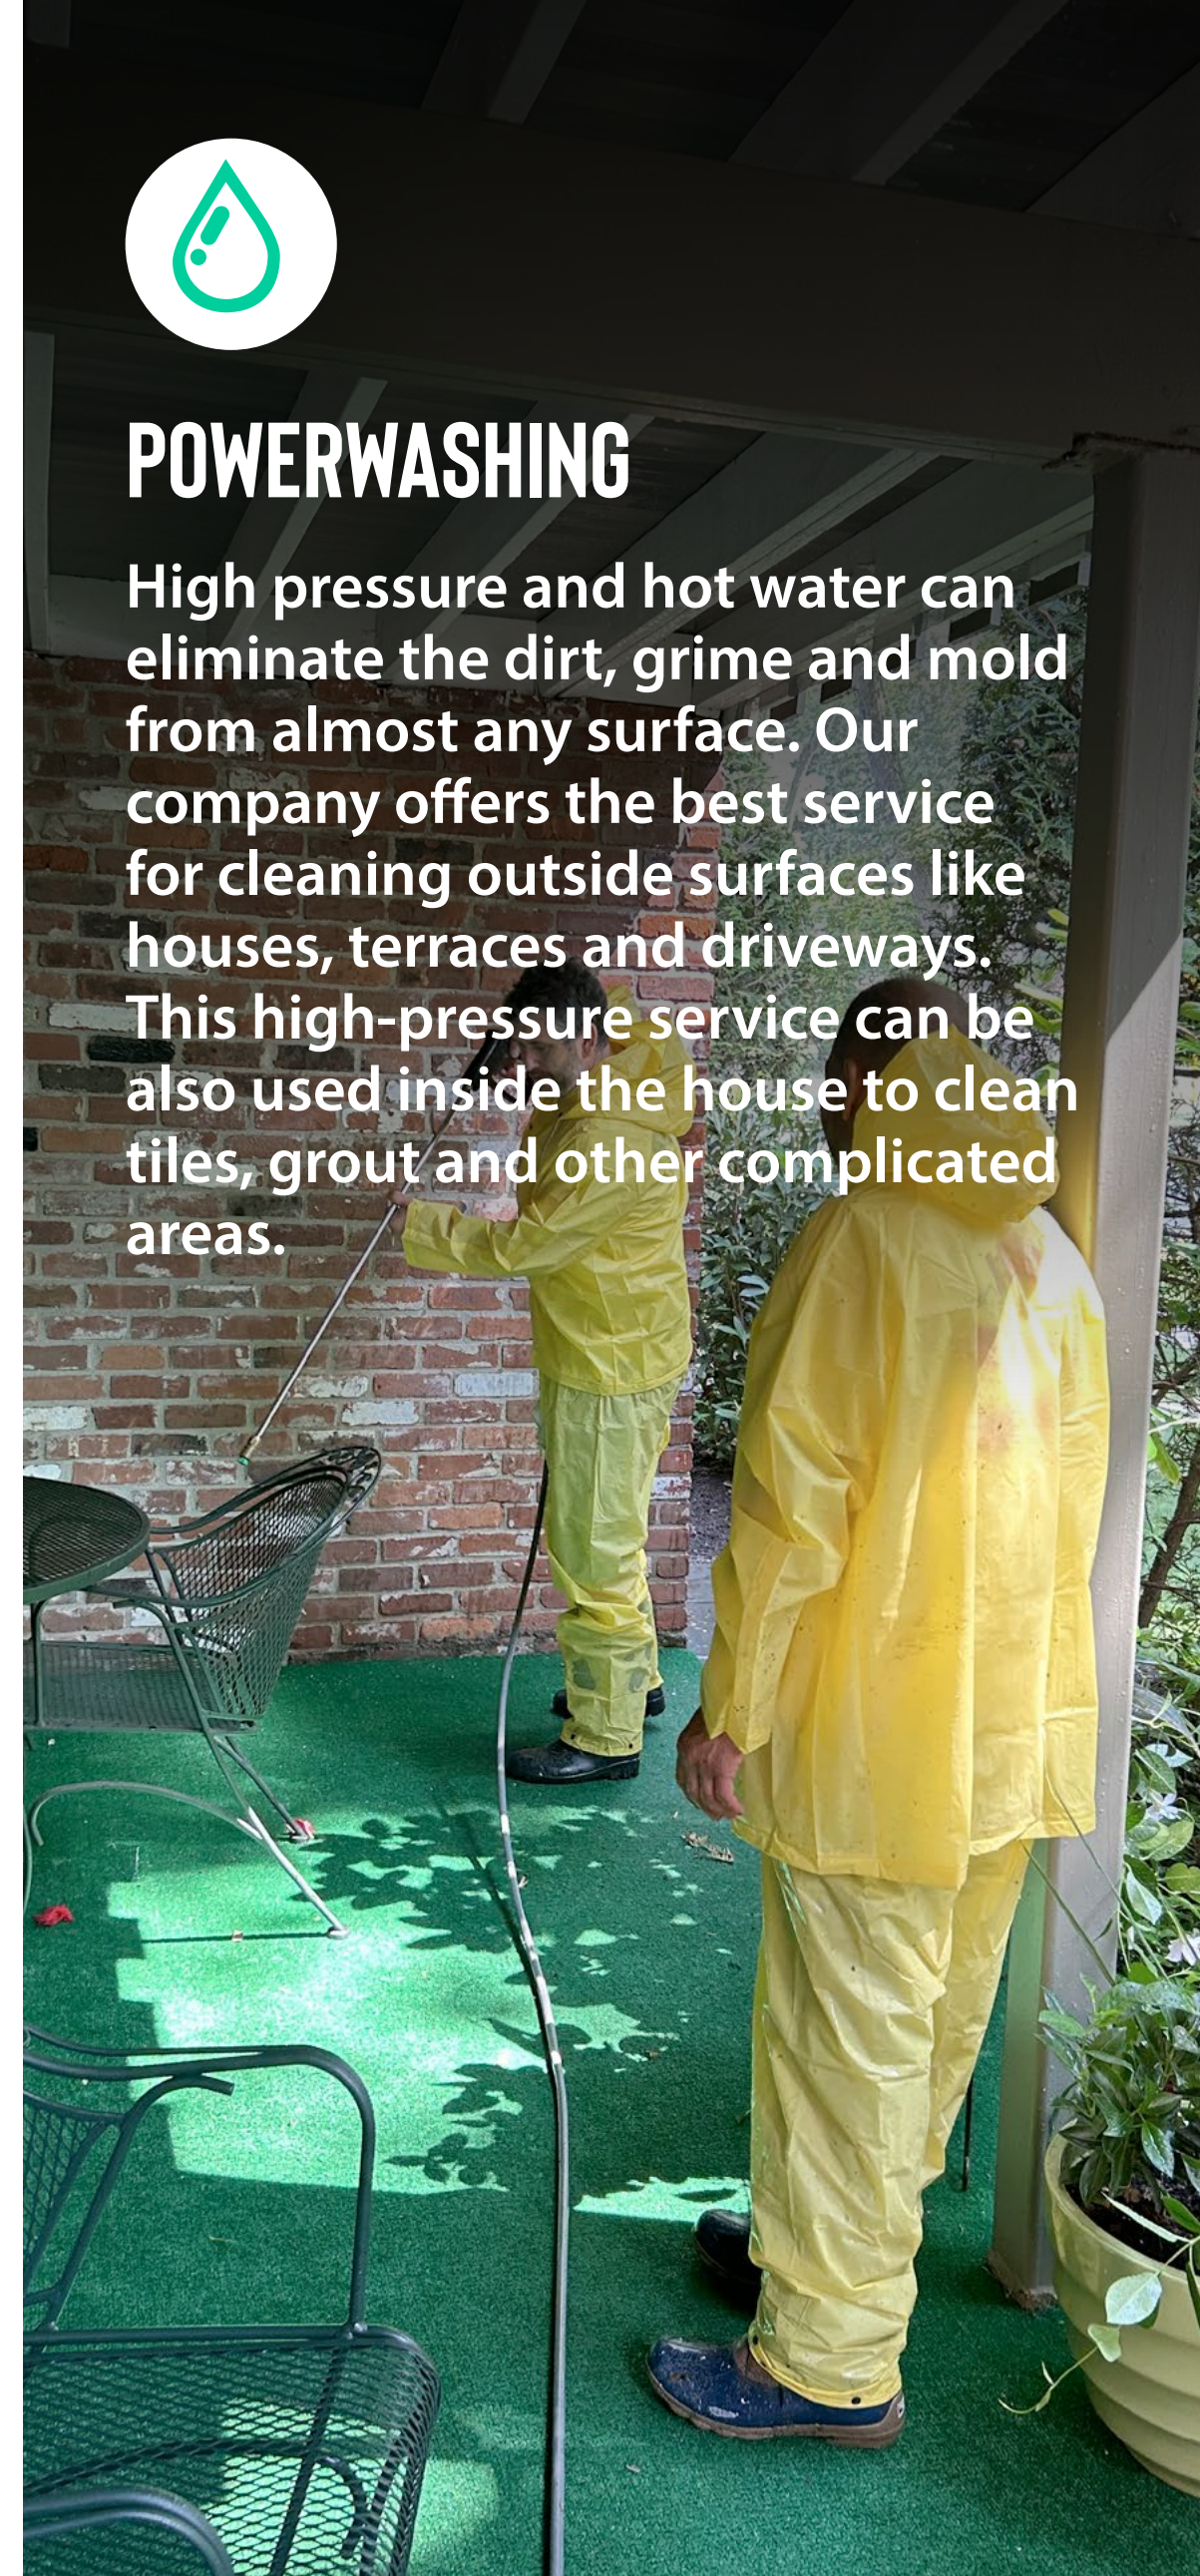

STEAM CLEANING FOR YACHTS (INSIDE).

Just like our cars, our boats also need a regular maintenance to function safely and without problems. For this, we have a special fine and flexible bristle brush service that doesn't damage the delicate surface of your yacht. We also use steam to get rid of 99,99% of the bacteria without chemical products that can affect the life of your family.

POWERWASHING

High pressure and hot water can eliminate the dirt, grime and mold from almost any surface. Our company offers the best service for cleaning outside surfaces like houses, terraces and driveways. This high-pressure service can be also used inside the house to clean tiles, grout and other complicated areas.

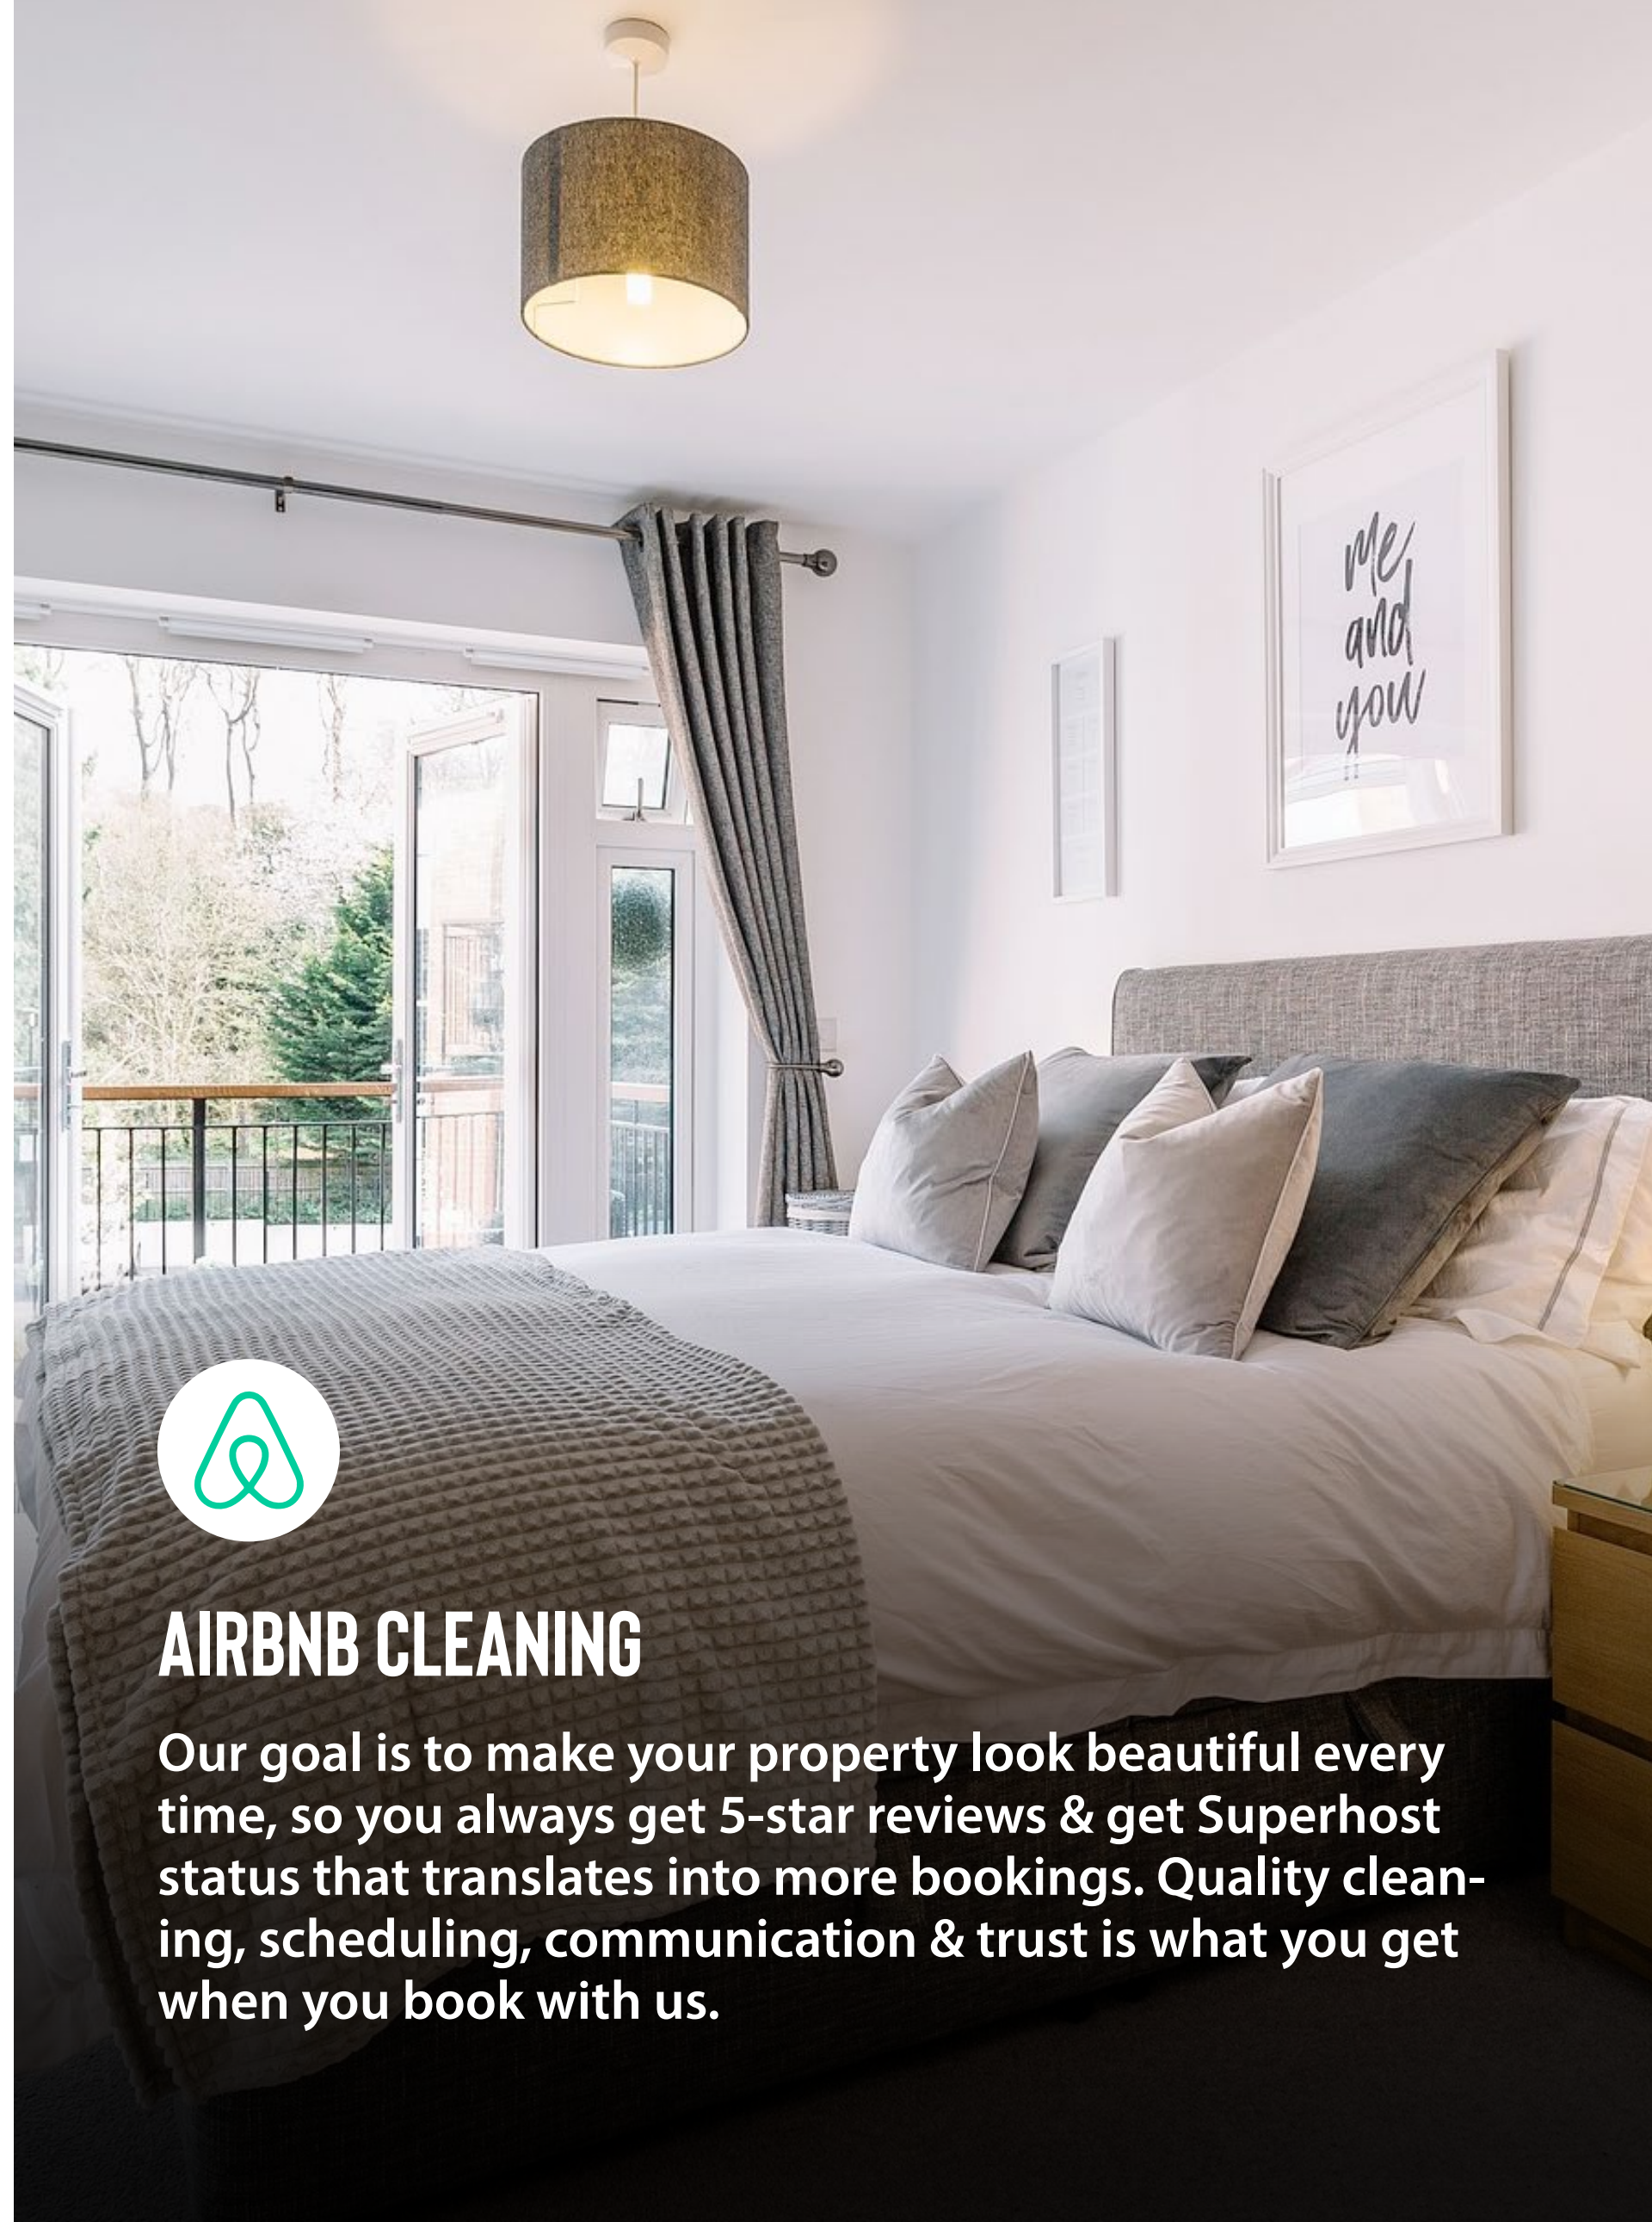

COMMERCIAL CLEANING

Maintaining a clean place for your business is very important for many reasons, especially if you often dealing with clients or customers. A bright and energizing space increases the chances of more clients and return customers, and also builds a healthy environment to keep you and your staff happy and productive.

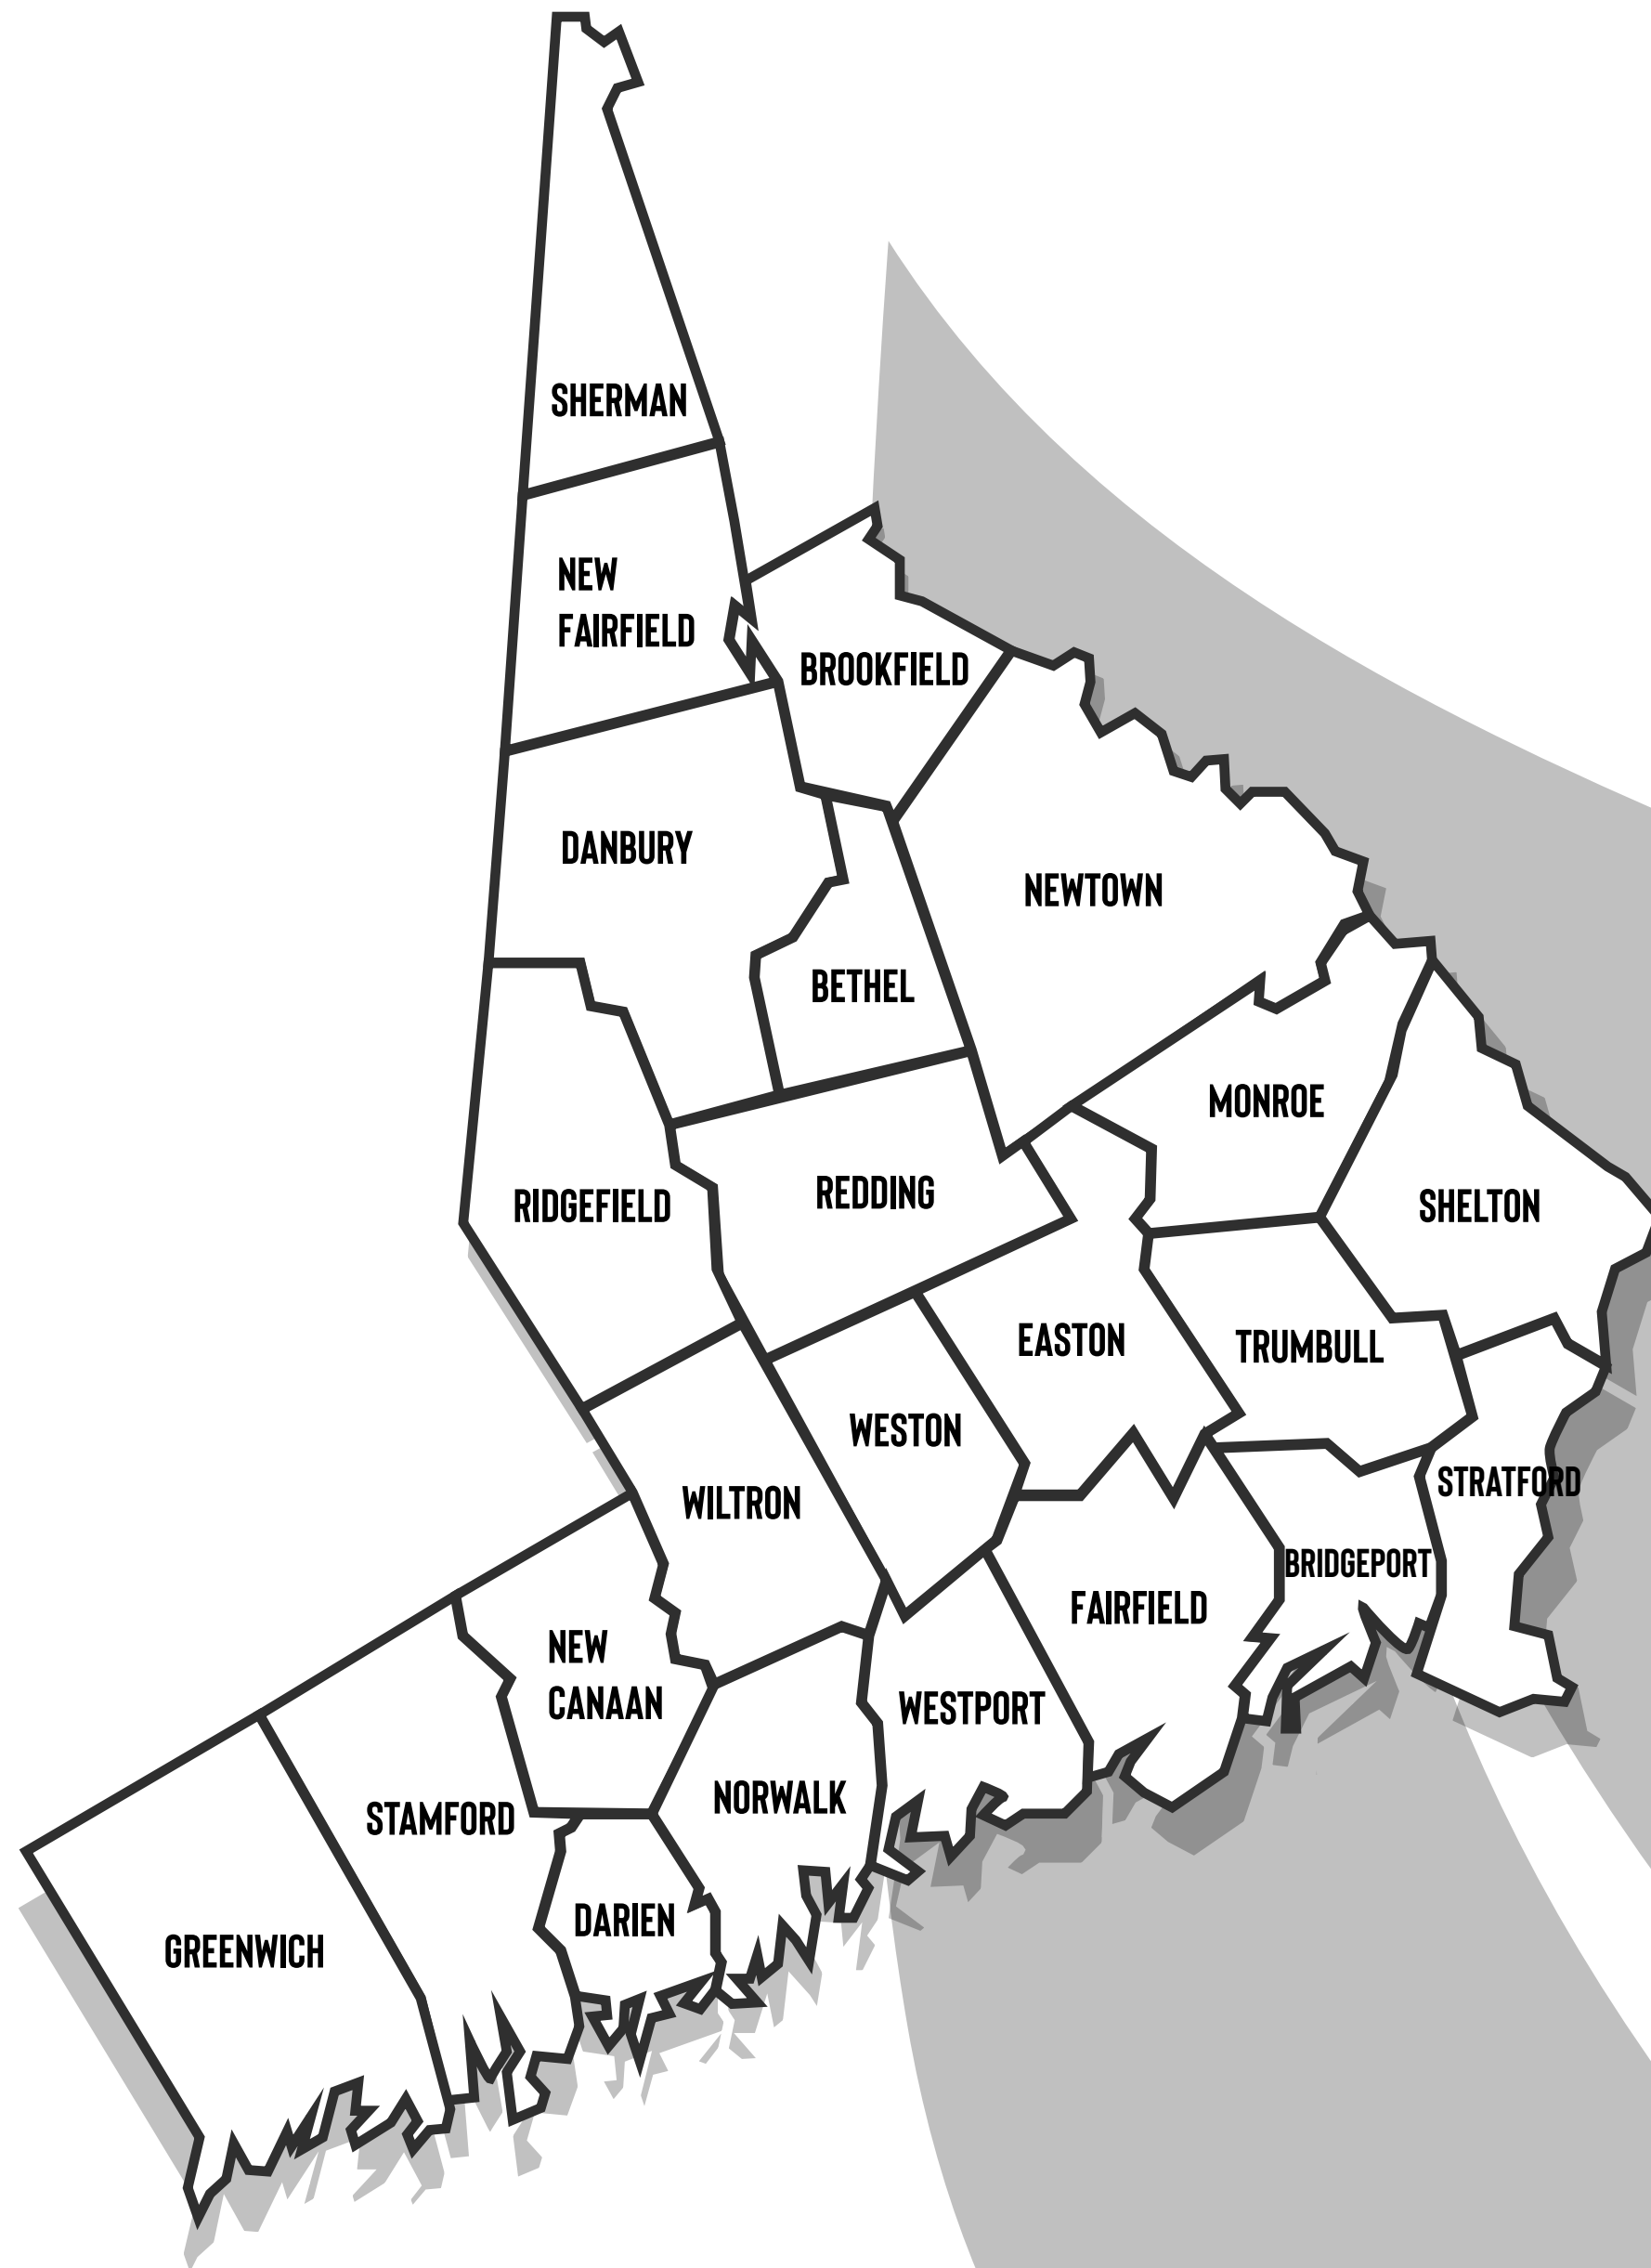

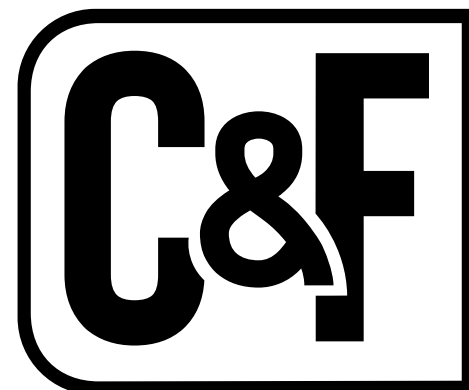

AIRBNB CLEANING

Our goal is to make your property look beautiful every time, so you always get 5-star reviews & get Superhost status that translates into more bookings. Quality cleaning, scheduling, communication & trust is what you get when you book with us.
